Our Estimate Too Low.

From 43,777,675 pounds of copper in 1898 to 110,823,854 pounds in 1899 is the story that Arizona has to tell. This is an average increase of 15,400,000 pounds a year for the five years since 1893. In an article published some months ago we went into Arizona's copper figures and hazarded the statement that its copper production for the present year would not be less than 140,000,000. That would be an increase of about 20,000,000 pounds over last year's production. That statement has been copied far and wide. From what we have learned since that article was published we are disposed to believe that we under-estimated this year's production, and that when the returns are all in it will be seen that Arizona will have produced during the year 1899 not less than 150,000,000 pounds of copper. But even with that increase it will only fill a small gap in the increased uses of that metal.

It is interesting to note the increase made by the big copper producers of Arizona since 1893. The Arizona Copper Company produced 10,297,277 pounds more of copper in 1898 than it did in 1897; the Detroit company, 6,486,264; the Copper Queen Company, 19,953,772. The greatest is in the United Verde. That company in 1893 only produced 9,121,146 pounds of copper, but in 1898 it produced 42,323,926 pounds. It is estimated that its production for the present year will be close to, if not quite 50,000,000 pounds.—Mining Review.

For

This Week

The Furniture Room from now until Christmas will be the storm center of interest. Not that the holiday spirit, imbued by holiday goods, will be lacking throughout the rest of the store, but the Dolls, the Games, the Toys, everything that appeals to childish hearts, will be in the Furniture Store.

Boxes and Cases are being opened and their contents made ready for you. The toy world grows apace, but we shall have more to tell of this shortly.

LINENS.

For some reason or other the approach of Thanksgiving Day turns feminine thoughts linenward. We are no better prepared now than at any time, for we endeavor to have our stock always complete. However, this is an opportune time to tell of Linens—table linens particularly.

Bleached Damask, 55 inches wide, 35 cents a yard.

Bleached Linen Damask, 50 inches wide, 40 cents a yard.

Bleached and Half Bleached Linen Damask in Floral and Geometrical designs, 65 cents to \$1 a yard.

Two examples of superior quality Damask, both bleached, full 72 inches wide. One design is carnations strewn on a finely dotted background; the other large pansies on a groundwork of fine, satin-finished damask; \$1.25 and \$1.50 a yard respectively.

Linen Napkins from 75 cents to \$4.50 a dozen.

Tray Cloths, stamped or plain, hemmed or fringed, oval shaped or square. Doilies of every sort and size.

SEPARATE SKIRTS.

No matter how cheap the skirt, unless it hangs properly it is not worth the price. This tells of skirts that have that "hang" about them that marks them correct. They are little priced, too. Three examples:

Black Brocade Skirt.....\$1.75

Black Worsted Serge, tight fitting across hips and back

pocket at side.....4.25

Gray Worsted Serge.....4.50

SOUVENIR SPOONS.

In the bowls of which are embossed views typical of Bisbee, also "Bisbee, Arizona." They are of sterling silver and come in two sizes—tea and coffee. Neatly packed, as we'll pack them for you, they'll be welcomed as souvenirs by your far-away friends. \$1.50 and \$2 each.

The Hardware Store is not the place you think it is. It will furnish many a hint and a help to solving what to give. Christmas is so near that perhaps a hint or two will be welcome. For instance:

Rogers AA Silver Plated Tea Spoons.....\$2 a dozen

Rogers AA Silver Plated Table Spoons.....4 a dozen

A dollar more on a dozen will be nearer the real value of these.

Carving Sets from \$2 a set to \$28 for a five piece set—pearl handle, with solid silver trimmings.
